

## HARBLE RIDGE COVID-19 STATEMENT

My family is very excited to welcome guests back to our Cabins at Harble Ridge in the beautiful Hocking Hills! We feel it is necessary to inform you of some of the extra steps we are taking to ensure the health and safety of all our guests.

We take great pride in the cleanliness of our facilities, and we believe by adding a few additional safety measures we can make your stay worry free!

Here are some of the changes we are implementing:

- As always, Harble Ridge cabins are accessed via keyless entry, which requires no interaction beyond your immediate travel group.
- We are temporarily removing games, books, and throw pillows from the cabins. These are items that are difficult to properly sanitize, and we believe the best course of action was to remove them temporarily. Please feel free to bring your own games and books from home!
- All of our beds and pillows have anti-microbial waterproof encasements that provide an extra layer of protection. As always, if you are more comfortable bringing your own pillows or linens, please feel free.
- Our hot tubs will be cleaned and sanitized between guests. We are one of the only cabin facilities in the Hocking Hills that uses a professional grade computer water testing device to ensure the highest water quality for our guests. Our hot tubs also have UV and Ozone sanitizers built in.
- We are supplying hand sanitizer for your use while on property. Please don't take these away from the property as our supply is very limited.
- All outdoor furniture will be wiped down with the same EPA approved sanitizer we use inside.
- We will make every attempt to wipe down the playground for our guests at The Lodge, but we ask that you please ensure children use hand sanitizer or wash their hands in between use.
- We use EPA-approved disinfectant and toilet bowl cleaner on all bathroom and kitchen surfaces, including showers and handles, sinks and faucets, toilets, floors, counters and appliances. We use this same cleaner on all other high touch surfaces.
- We have a commercial laundry facility in which we process our linens using the same equipment and detergents as most major hotel chains. Rest assured that your linens will be sanitized properly.
- We have asked our resident Sasquatch to please wear a mask when walking around the property. Frankly, his listening skills are poor, so please feel free to remind him if you happen to see him.

We truly miss our guests and cannot wait to provide you with a safe and relaxing respite from all the madness in the world right now. While we will be as thorough as possible, please continue to practice the CDC recommendations of 6 feet of social distancing and please wear masks should you choose to go out into the local community. We wish for everyone to remain responsibly cautious during this time in order to limit the spread. As more information becomes available from the Hocking County Health Department we will update you with any changes.

Should you have any questions before, during, or after your stay, please don't hesitate to contact me by email at [harbleridge@gmail.com](mailto:harbleridge@gmail.com), or by phone at 614-245-5563. Should you find that you or any of your guests have acquired COVID-19, please notify us immediately using the contact information above.

All my best,  
Mallory & The Harble Ridge Team
